

# Primary School Health Team Newsletter

## Term 2 November 2020

*This newsletter aims to provide families and young people with some useful tips for keeping healthy. Childhood is an important time to instil healthy habits and learn crucial life skills. Establishing these habits early on will help to improve your child's quality of life in the future and enable them to reach their full potential educationally.*

Dear all,

We continue to live in very unsettled and uncertain times, the schools are open with COVID restrictions in place and procedures for children who may be experiencing symptoms or have COVID 19. This will continue even when we lockdown again later this week. We are assured by the government that our service will not be redeployed during the second wave, so School Health Nurses continue to be available for children and families, if you have a concern regarding your child, please use the contact details at the bottom of this newsletter to contact us. Our colleagues in children's mental health services (CAMHS) and the therapy services, are also working hard to support children and have shared their contact details. Oxford Health Website has many resources and links to verified websites with useful information and suggestions to cope in these unprecedented times.

Take care and stay safe – Primary School Health Nurses Team

### YOUNGMINDS

**Is your child experiencing anxiety, are you a parent looking for support?**

Read our guide for parents on what you can do if your child has anxiety.

### Black History on the BBC

Children's education series discussing the influence of black people on the world aimed at a primary school audience. Clips from the Black Britons programme give an introduction to the history of black people in Britain, from the Romans, through the slave trade to the end of the Second World War. ## Flu Vaccine – nasal spray – quick & easy!

All children in primary school from reception to year 6 are eligible for the Flu vaccine

**HELP US  
HELP YOU**  
PROTECT AGAINST FLU

The program is being delivered in all schools between the 12<sup>th</sup> October and the 16<sup>th</sup> December, this is before the peak flu season arrives in January and February, as directed by NHS England.

Please watch out for an email from school which will provide further details and the link to the Online Consent Form

Any queries email [flu.schoolnurses@oxfordhealth.nhs.uk](mailto:flu.schoolnurses@oxfordhealth.nhs.uk) or phone 07920 254 400

**For your child to be immunised in school don't forget to submit your consent before the closing date!**

**It is important to enter your child's NHS number on the form – this can be found in your red book or from your GP**

## COVID-19 PARENTING Talking about COVID-19

### Be willing to talk.

They will already have heard something. Silence and secrets do not protect our children. Honesty and openness do. Think about how much they will understand. You know them best.

### Activity Guidelines for 5 to 18-year-olds

At least 60 mins of physical activity every day- this should range from moderate activity, such as cycling and playground activities to vigorous activity such as running and football.

3 days a week it should involve exercises for strong muscles and bones, such as sports, gymnastics or ball games.
